## RISK FACTORS

Investment in the Cell Shares issued by the Company in respect of the Protected Cell is subject to certain risk factors. Investors should carefully consider both the risks generally associated with investing in the Company and the risks associated in investing in the Cell Shares.

The risks listed below and in the Registration Document are those risks that the Company, as at the date of this Securities Note, is aware of and considers to be material and should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in the Cell Shares. Risks that the Company considers to be immaterial or of which it is not aware have not been included and potential investors should be aware that an investment in the Cell Shares may be exposed to other risks not considered material by the Company based on information currently available to it or which it is not currently able to anticipate. Investors should read the detailed information set out elsewhere in this Securities Note and in the Registration Document and Summary and reach their own views prior to making any investment decision.

Where information has been sourced from a third party within these risk factors the third party source of such information is identified in a footnote and the Company confirms that such information has been accurately reproduced and that, so far as it is aware, and is able to ascertain from information published by that third party, no facts have been omitted which would render the reproduced information inaccurate or misleading.

- *Plan Investments and Investment Objective*

Investors should be aware that the Company's only investments for the Protected Cell will be in Plan Investments and that there may be no counterparty risk diversification. The obligations of each Investment Counterparty under the Plan Investments will not be collateralised. There can be no assurance that the Company's full investment objective in respect of the Protected Cell will be achieved.

- *Performance Return Risk and Extent of Guaranteed Return*

Investors should note that the Guaranteed Return for the Protected Cell extends only to an amount equal to the aggregate of the Investment Amount and the Fixed Return and the guarantee does not extend to the full amount of the Investment Return in respect of the Cell Shares if the Performance Return, rather than the Fixed Return, is payable.

There can be no assurance that Shareholders will receive the Performance Return in respect of the Cell Shares. Any Performance Return in respect of the Cell Shares will be dependent on the performance of the Index (i.e. the Index Growth multiplied by the Participation Rate has to exceed 3 per cent.).

Investors should note that the calculation of the Performance Return is calculated by reference to the closing level of the Index on the Initial Valuation Date and on each Scheduled Trading Day during the Final Valuation Period. The performance of the Index at any other time or on any other day will not be included in the calculation of the Performance Return.

Investors should note that any Performance Return per Cell Share will be limited to a maximum amount of £0.35 per Cell Share. Any positive performance of the Index that would otherwise produce a Performance Return greater than this maximum amount will not be reflected in the Investment Return paid to investors.

Investors should note that the Cell Guarantee applicable to the Cell Shares is a guarantee of payment only of an amount equal to the relevant Guaranteed Return by the Company to Shareholders on the Maturity Date. Under the terms of such Cell Guarantee, Santander Guarantee Company does not guarantee or give any other assurance as to the performance of the Index by reference to which the Investment Return in relation to the Cell Shares is to be determined.

Performance of the Cell Guarantee is dependent on the continued solvency of Santander Guarantee Company and Santander UK plc.

- *Long Term Investment*

Investors should be aware that investment in any Cell Shares should be viewed as an investment for the full Investment Term of such Shares. The value of the Cell Shares can fall as well as rise and there is no assurance that investors will be able to sell their Cell Shares prior to the relevant Maturity Date or as to the price at which any sale may be possible (please see further the sub-section headed "Liquidity" below).

- *Liquidity*

Dealings in the Cell Shares on the Channel Islands Stock Exchange will only commence on Admission of the relevant Cell Shares.

The Directors do not anticipate that an active secondary market will develop in the Cell Shares. Although a market maker may offer to buy and sell the Cell Shares in the secondary market during their Investment Term, investors should be aware that such market maker may cease to undertake any market making activities at any time at its sole discretion. For example, the market maker may decide not to buy Cell Shares if it determines that market conditions are unfavourable or it is likely to be in breach of applicable laws and regulations or its internal policies and limits. Accordingly, there can be no assurance that at any time there will be a secondary market for the Cell Shares, and if there is, the secondary market price in respect of the Cell Shares will reflect numerous factors including trade size, volatility of the Index, cost of funding, interest rates, credit risk, supply and demand as well as a bid/offer spread. Accordingly investors should not expect that any secondary market price for any Cell Shares will be calculated entirely or almost entirely by reference to the Net Asset Value per Cell Share or an index of any description, or by reference to any index or asset referred to in the terms of the Cell Shares.

The return to any Shareholder who disposes of his or her Cell Shares prior to their Maturity Date will depend on the price which can be obtained for those Shares in the market at that time and may be less than the Investment Return or even the Investment Amount. **Any Shareholder who disposes of his or her Cell Shares prior to their Maturity Date will not be covered by the Cell Guarantee in respect of such disposal and may receive back less than the amount which he or she invested in the Shares.**

- *Limitation or Cancellation of the Offer*

The Company reserves the right to limit the number of Cell Shares available under the Offer, as set out in Section A of this Securities Note.

The Company may also cancel the Offer by compulsorily redeeming any Cell Shares in issue, as set out in Section A of this Securities Note.

- *Change in Taxation*

Any change in the Company's tax status, or in taxation legislation or in the interpretation or application of tax legislation in Guernsey or the UK, or in any other tax jurisdiction affecting the

Company, a Shareholder or investor, could affect the value of the investments held by the Protected Cell of the Company, the amount paid to the Company under any of the Plan Investments, the Company's ability to achieve the stated investment objective of the Protected Cell, the amounts guaranteed or payable under the Cell Guarantee applicable to the Cell Shares and/or alter the post tax returns to Shareholders. Statements in this Securities Note concerning the taxation of Shareholders resident in Guernsey or the UK are based upon current Guernsey and UK tax law and practice which is subject to change, possibly with retrospective effect. Any such change could adversely affect the ability of the Company to meet the stated investment objective or adversely affect the ability of the Company to pay the Investment Return payable in respect of the Cell Shares on the Maturity Date and the net amount of the Investment Return paid to Shareholders. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment is made in the Company will endure indefinitely.

It is not currently anticipated that there will be any withholding obligation on account of UK or Guernsey tax affecting payments made under the Plan Investments. If, however, there is a change in UK or Guernsey tax legislation or an introduction of or change in any other tax legislation, regulations thereunder or official interpretations thereof at any time which imposes an obligation to withhold on account of tax from payments by the Investment Counterparty to the Company under the Plan Investments (including but not limited to the US Foreign Account Tax Compliance Act discussed below), the amount payable by the Investment Counterparty may be reduced by the amount of such withholding. This may affect the ability of the Company to pay the Investment Return to Shareholders. In particular, it should be noted that if a change in or introduction of taxation law, regulations thereunder or official interpretations thereof (including but not limited to the US Foreign Account Tax Compliance Act discussed below) were to result in the obligation to withhold on account of tax from payments to Shareholders under the Cell Shares, the amount of the Investment Return actually received by Shareholders would be reduced. The Company will not make any additional payments to Shareholders in the event that any withholding obligation is imposed on payments by the Company under the Cell Shares issued in respect of any Cell. In circumstances where the amounts payable to Shareholders are reduced as a result of a change in or introduction of tax legislation, regulations thereunder or official interpretations thereof as described in this paragraph and those amounts are consequently less than the Guaranteed Return for the relevant Cell, the liability of the Guarantor under the Cell Guarantee applicable to the Cell Shares will be reduced accordingly.

- *US Foreign Account Tax Compliance Withholding may affect payments on the Cell Shares*

Sections 1471 through 1474 of the US Internal Revenue Code ("**FATCA**") impose a new reporting regime and potentially a 30% withholding tax with respect to certain payments to any non-US financial institution (a "foreign financial institution", or "**FFI**" (as defined by FATCA)) that (i) does not become a "**Participating FFI**" by entering into an agreement with the US Internal Revenue Service ("**IRS**") to provide the IRS certain information in respect of its account holders or (ii) is not otherwise exempt from or in deemed-compliance with FATCA. The new withholding regime will be phased in beginning in 2014 for payments received from sources within the United States and will apply to "**foreign passthru payments**" (a term not yet defined) no earlier than 2017. This withholding would apply to (i) any Cell Shares characterized as debt (or which are not otherwise characterized as equity and have a fixed term) for US federal tax purposes that are not yet outstanding as of the date (the "**grandfathering date**") that is six months after the date on which final US Treasury regulations define the term "foreign passthru payments" or are materially modified after the grandfathering date and (ii) any Cell Shares characterized as equity or which do not have a fixed term for US federal tax purposes, whenever issued.

The United States and a number of potential partner countries have announced their intention to enter into intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"), and after consultation with these countries, the United States released a model IGA. Pursuant to FATCA and the model IGA, an FFI in an IGA signatory country could also be treated as

a "**Reporting FI**" not subject to FATCA withholding on any payments it receives. Such an FFI would also not be required to withhold under FATCA or an IGA (or any law implementing or complying with, or introduced in order to conform to an IGA) from payments it makes (any withholding under FATCA or an IGA (or any law implementing or complying with, or introduced in order to conform to an IGA) being a "**FATCA Withholding**"), but the model IGA leaves open the possibility that such an FFI might in the future be required to withhold on foreign passthru payments that it makes. A Reporting FI would be required to report certain information in respect of its account holders to its home government. Guernsey may enter into an IGA, along with the other Crown Dependencies, although this is not a certainty. Early indications are that any information transmitted under Guernsey's IGA would be passed in the first instance to HM Revenue and Customs.

If the Company becomes a Participating FFI under FATCA or a Reporting FI pursuant to an IGA, the Company and financial institutions through which payments on the Cell Shares are made may be required to withhold FATCA Withholding if (a) any FFI through or to which payment on such Cell Shares is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed-compliance with FATCA or (b) an investor (other than an exempt investor) does not provide information sufficient to determine whether the investor is a US person or should otherwise be treated as holding a "United States Account".

If an amount in respect of FATCA Withholding were to be deducted or withheld from interest, principal or other payments on the Cell Shares, neither the Company nor any paying agent nor any other person would, pursuant to the conditions of the Cell Shares, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may receive less interest or principal than expected. If any FATCA Withholding is imposed, a beneficial owner of Cell Shares that is not a foreign financial institution generally will be entitled to a refund of any amounts withheld by filing a US federal income tax return, which may entail significant administrative burden. A beneficial owner of Cell Shares that is a foreign financial institution will be able to obtain a refund only to the extent an applicable income tax treaty with the United States entitles it to an exemption from, or reduced rate of, tax on the payment that was subject to FATCA Withholding.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on proposed regulations, official guidance and the model IGA, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their own tax advisers on how these rules may apply to the Company and to payments they may receive in connection with the Cell Shares.

- *Entity Risk*

The Company was constituted as a protected cell company pursuant to the Companies (Guernsey) Law, 1994 to 1996, as amended and The Protected Cell Companies Ordinance 1997. With effect from 1 July 2008 the Companies (Guernsey) Law, 1994 to 1996, as amended and The Protected Cell Companies Ordinance 1997 were repealed and replaced with the Companies (Guernsey) Law, 2008, as amended (the "**Companies Law**"). A protected cell company is a multi-cellular company whose principal feature is that each cell has its own distinct assets which are not available to creditors of other cells of that company or the company as a whole. Jurisdictions other than Guernsey may not be prepared to accept that creditors of a particular cell are prevented from gaining access to the cellular assets of other cells, or that creditors of the company as a whole do not have access to those assets specifically designated as cellular assets. In order to minimise this risk (i) service providers to the Company will generally be required to agree that their fees will be paid solely from the assets of the particular Cell to which the services relate and (ii) each Shareholder will be required to agree when subscribing for Shares that any liability to the Shareholder will be satisfied only out of assets of the particular Cell to which the liability relates. However, a court could determine that such agreements are not enforceable.

Other Cells may be introduced by the Company from time to time. A separate portfolio will be maintained for each Cell and each Cell will bear its own liabilities. Each Cell will remain ultimately liable to third parties for its own liabilities and the assets of one Cell will not be available to meet the liabilities of any other Cell(s).

- *Cross-Cell Liabilities*

The structure of the Company allows for the creation of multiple Cells. Generally, the assets of each Cell are segregated, so that the assets of one Cell are not available to satisfy the liabilities of any other Cell. In the event of a particular Cell's portfolio suffering severe losses such that the liabilities of the Cell exceeded the assets of the Cell, under the law currently in effect in Guernsey, creditors of that Cell could not seek to recover from the assets of other Cells. However, there can be no assurance that such law will not change and thus that there will never be any cross-cell liability risk.

- *Determination Agent's discretion*

The Determination Agent has a very broad discretionary authority to make various determinations and adjustments under the Cell Shares, any of which may have an adverse effect on the Investment Return. For example, the Determination Agent has a broad discretion, without limitation, (i) to determine whether a Disrupted Day, a Market Disruption Event and any other event and/or matter so specified in the Section headed "Market Disruption and Adjustment" in Part B of the Registration Document or this Securities Note, has occurred, (ii) to determine any resulting adjustments, determinations and calculations as described in the Section headed "Market Disruption and Adjustment" in Part B of the Registration Document or this Securities Note and (iii) in respect of any other matters as may be specified in the Prospectus. Prospective investors should be aware that any determinations made by the Determination Agent may have an impact on the Investment Return.

If the Determination Agent determines that any Scheduled Valuation Date (i) is a Disrupted Day or any other day which is subject to adjustment in accordance with the terms and conditions of the Cell Shares and/or (ii) falls on a day in respect of which a disruption, adjustment or correction or similar event has occurred in respect of the Index which affects the valuation of the Index, the Determination Agent has broad discretion to make any consequential postponement or omission of, or any alternative provision for, valuation of the Index provided for in the terms and conditions of the Cell Shares, including a determination of the value of such Index by the Determination Agent in its discretion, each of which may have an adverse effect on the Investment Return.

- *Bank Account Credit Risk*

The Company intends to place any subscription monies it receives prior to the Investment Date on deposit in its bank account held in respect of the Protected Cell with Royal Bank of Scotland International Limited (Guernsey Branch). **If Royal Bank of Scotland International Limited (Guernsey Branch) (or any other bank with which the Original Subscription Proceeds were to be deposited) were to be wound-up or otherwise suffer an insolvency-related event between the start of the Offer Period and the Drawdown Date in respect of the Cell Shares, the Plan Investments will not become effective and the Company may lose some or all of its subscription monies in which case, Shareholders may lose some or all of their investment. The Company has no knowledge of any insolvency-related event with respect to the Royal Bank Scotland International Limited (Guernsey Branch) as at the date of this Prospectus.**

The realisation proceeds of any Plan Investments shall be paid into a bank account of the Company acting in respect of the protected Cell at Santander UK plc over which the Guarantor has a first charge pursuant to the Cell Security Documents for the Protected Cell. **If Santander UK plc (or any other bank with which the realisation proceeds of any Plan Investment were to be deposited) were to be wound-up or otherwise suffer an insolvency-related event at a time when it held proceeds (which is expected to be on the Maturity Date, between the time the returns on**

the Plan Investments are paid into the account and the time they are utilised to make payments to Cell Shareholders), the Company may not be able to utilise all the monies in the account to make payments to Shareholders in respect of the redemption of their Shares and the Guarantor may not be able realise its security interest in respect of all the monies in the account, in which case Shareholders may lose some or all of their investment. The Company has no knowledge of any insolvency-related event with respect to Santander UK plc as at the date of this Prospectus.

- *Cell Guarantee Risks*

Shareholders will receive an amount at least equal to the Guaranteed Return in respect of their Cell Shares held on the Maturity Date only if either:

- (i) the obligations of Abbey National Treasury Services plc, as the Investment Counterparty, are satisfied in relation to the repayment of an amount equal to the Net Issue Proceeds under the Term Loan Agreement on the Maturity Date and the Forward Cash Settlement Amount is paid under the Forward Transaction on the Maturity Date; or
- (ii) Santander Guarantee Company satisfies its obligations under the Cell Guarantee applicable to the Cell Shares on the Maturity Date if the Company, acting in respect of the Protected Cell, fails to pay an amount at least equal to the Guaranteed Return to Shareholders in respect of their Cell Shares held until the Maturity Date and, if necessary, Santander UK plc satisfies its obligations to Santander Guarantee Company under the Conditional Share Subscription Agreement.

**If the Company does not lend the Net Issue Proceeds to Abbey National Treasury Services plc under the Term Loan Agreement on the Drawdown Date because the Term Loan Conditions Precedent are not satisfied or for any other reason whatsoever, the Forward Transaction will not become effective and the Company will compulsorily redeem all the Cell Shares and investors will receive back all subscription monies held (plus any net interest earned thereon), save where the Company is unable to recover some or all of its subscription monies as explained in the sub-section headed "Bank Account Credit Risk" above. The Cell Guarantee applicable to the Cell Shares will not apply to any such redemption of the Cell Shares.**

**If the obligations of Abbey National Treasury Services plc under the Term Loan Agreement and/or the Forward Transaction are not satisfied and Santander Guarantee Company were to default under the Cell Guarantee applicable to the Cell Shares (whether as a result of insolvency or otherwise), Shareholders could lose some or all of their investment.**

The obligation of Santander Guarantee Company to pay Shareholders any shortfall between the redemption amount they receive from the Company and the Guaranteed Return in respect of their Cell Shares under the Cell Guarantee applicable to the Cell Shares will apply only in respect of Cell Shares held until they are redeemed on the Maturity Date. Prior to this date, such Cell Guarantee will not apply. Shareholders who dispose of their Cell Shares prior to the Maturity Date will not be covered by such Cell Guarantee in respect of such disposal and may receive less than the Guaranteed Return or the amount which they invested in the Cell Shares.

The obligations of Santander Guarantee Company to make payments under the Cell Guarantee applicable to the Cell Shares will be limited to the extent that it is illegal for such payment to be made to Shareholders. In addition, if there is a change of tax legislation at any time resulting in a withholding tax or other tax deduction affecting payments under any Plan Investment or any tax is imposed on the Company on the proceeds of any Plan Investment, the amount payable under the Cell Guarantee applicable to the Cell Shares will be reduced accordingly. In the event that the amount paid by the Company to the Shareholders on redemption of Cell Shares at the Maturity Date becomes subject to any withholding tax, Shareholders will not be entitled to claim against the

Guarantor under such Cell Guarantee for payment of the amounts withheld or deducted. Payments under the Cell Guarantee applicable to the Cell Shares will also be made net of any withholding tax or other tax deduction, including, for the avoidance of doubt, any FATCA Withholding.

**If Santander UK plc, Abbey National Treasury Services plc or Santander Guarantee Company were to be wound-up or otherwise suffer an insolvency-related event at any time, Shareholders may lose some or all of their investment.**

Potential investors should ensure that they have carefully read and understood Section D of this Securities Note which sets out a summary of the agreements constituting the Cell Guarantee applicable to the Cell Shares and the Cell Security Documents for the Protected Cell.

- *The Santander Group*

Santander Guarantee Company, Abbey National Treasury Services plc, and Santander UK plc are each part of the Santander Group. Set out below are risks related to economic conditions in the UK, Europe and global financial markets that may materially and adversely affect the Santander Group's financial condition and prospects.

**Because of the roles of Santander Guarantee Company (as Guarantor), Abbey National Treasury Services plc (as Investment Counterparty) and Santander UK plc (as counterparty to the Conditional Share Subscription Agreement and account bank) described above, if, as a result of any such material and adverse effects or otherwise, Santander UK plc, Abbey National Treasury Services plc or Santander Guarantee Company were to be wound-up or otherwise suffer an insolvency-related event at any time, Shareholders may lose some or all of their investment. The Company has no knowledge of any insolvency-related event with respect to Santander Guarantee Company, Abbey National Treasury Services plc and Santander UK plc as at the date of this Prospectus.**

- *The Santander Group's financial condition and prospects may be materially impacted by economic conditions in the UK*

The Santander Group's business activities are concentrated in the UK and on the offering of mortgage, loan and savings-related products and services. As a consequence, the Santander Group's financial condition and prospects are significantly affected by economic conditions in the UK generally, and by the UK property market in particular.

The outlook for the UK economy has remained challenging over the last year, with the UK economy dipping back into recession in the course of 2012. Though the economy returned to growth in the third quarter of 2012, this was in part due to one-off factors (such as the Olympics) and prospects for the 2013-2014 financial year remain challenging. Uncertainty surrounding the future of the eurozone, although less acute than before, may continue to pose a risk of further slowdown in economic activity in the UK's principal export markets which would have an effect on the broader UK economy. Domestically, both public and household spending are being constrained by austerity measures, and there is a risk of higher levels of unemployment combined with a decline in real disposable incomes.

Adverse changes in the credit quality of the Santander Group's borrowers and counterparties or a general deterioration in UK or global economic conditions could reduce the recoverability and value of the Santander Group's assets and require an increase in the Santander Group's level of provisions for bad and doubtful debts. Likewise, a significant reduction in the demand for the Santander Group's products and services could negatively impact its business and financial condition. UK economic conditions and uncertainties may have an adverse effect on the quality of the Santander Group's loan portfolio and may result in a rise in delinquency and default rates. There can be no assurance that the Santander Group will not have to increase its provisions for loan losses in the

future as a result of increases in non-performing loans or for other reasons beyond its control. Material increases in the Santander Group's provisions for loan losses and write-offs/charge-offs could have a material adverse effect on its financial condition and prospects.

As in several other economies, the UK Government has taken measures to address the exceptionally high level of national debt, including tax increases and public spending cuts. These measures have contributed to a slower recovery than other recent recessions. Political involvement in the regulatory process, in the behaviour and governance of the UK banking sector and in the major financial institutions in which the UK Government has a direct financial interest is set to continue. Credit quality could be adversely affected by a further increase in unemployment. This, plus the combination of slow economic recovery and UK Government intervention, together with any related significant reduction in the demand for the Santander Group's products and services, could have a material adverse effect on its financial condition and prospects.

- *The Santander Group is vulnerable to the current disruption and volatility in the global financial markets*

In the past five years, the financial systems worldwide have experienced difficult credit and liquidity conditions and disruptions leading to less liquidity, greater volatility, a general widening of spreads and, in some cases, lack of price transparency on interbank lending rates. Global economic conditions deteriorated significantly between 2007 and 2009 and many countries, including the UK, have been in recession. Many major financial institutions, including some of the world's largest global commercial banks, investment banks, mortgage lenders, mortgage guarantors and insurance companies, experienced significant difficulties. Around the world, there have also been runs on deposits at several financial institutions, numerous institutions have sought additional capital or have been assisted by central banks and governments providing liquidity, whilst many lenders and institutional investors have reduced or ceased providing funding to borrowers (including to other financial institutions). The global economic slowdown, and the downturn in the UK in particular, have had a negative impact on the UK economy and adversely affected the Santander Group's business.

Risk factors related to the economic downturn include:

- The Santander Group potentially faces increased regulation of its industry. Compliance with such regulation may increase the Santander Group's costs, may affect the pricing for its products and services, and limit its ability to pursue business opportunities.
- Reduced demand for the Santander Group's products and services.
- Inability of the Santander Group's borrowers to comply fully or in a timely manner with their existing obligations.
- The process the Santander Group uses to estimate losses inherent in its credit exposure requires complex judgements, including forecasts of economic conditions and how these economic conditions might impair the ability of the Santander Group's borrowers to repay their loans. The degree of uncertainty concerning economic conditions may adversely affect the accuracy of the Santander Group's estimates, which may, in turn, impact the reliability of the process and the quality of its assets.
- The value and liquidity of the portfolio of investment securities that the Santander Group holds may be adversely affected.
- A worsening of the global economic conditions may delay the recovery of the international financial industry and impact the Santander Group's financial condition.

Uncertainty remains concerning the future economic environment and there is no assurance when conditions will significantly improve. While certain segments of the global economy are currently experiencing some modest recovery, the Santander Group expects these conditions to continue to have an ongoing negative impact on its business and results of operations. Investors remain cautious and downgrades of the sovereign debt of certain eurozone countries have induced greater volatility in the capital markets. A slowing or failing of the economic recovery would likely aggravate the adverse effects of these difficult economic and market conditions on the Santander Group and on others in the financial services industry.

Continued or worsening disruption and volatility in the global financial markets could have a material adverse effect on the Santander Group, including its ability to access capital and liquidity on financial terms acceptable to it, if at all. If capital markets financing ceases to become available, or becomes excessively expensive, the Santander Group may be forced to raise the rates it pays on deposits to attract more customers and become unable to maintain certain liability maturities. Any such increase in capital markets funding costs or deposit rates could have a material adverse effect on the Santander Group's interest margins.

If all or some of the foregoing risks were to materialise, this could have a material adverse effect on the Santander Group's financial condition and prospects.

- *The Santander Group may suffer adverse effects as a result of the continued economic and sovereign debt tensions in the eurozone.*

Eurozone markets and economies continue to show signs of fragility and volatility, with recession in several economies and only sporadic access to capital markets in others. Interest rate differentials among eurozone countries indicate continued doubts about some governments' ability to fund themselves and affect borrowing rates in those economies.

The European Central Bank (the "ECB") and European Council took actions in 2012 to aim to reduce the risk of contagion throughout and beyond the eurozone. These included the creation of the Open Market Transaction facility of the ECB and the decision by eurozone governments to create a banking union. Nonetheless, a significant number of financial institutions throughout Europe have substantial exposures to sovereign debt issued by nations which are under financial pressure. Should any of those nations default on their debt, or experience a significant widening of credit spreads, major financial institutions and banking systems throughout Europe could be destabilised, resulting in the further spread of the ongoing economic crisis.

The continued high cost of capital for some European governments was felt in the wholesale markets in the UK, which has resulted in an increase in the cost of retail funding and greater competition in a savings market that is growing slowly by historical standards. In the absence of a permanent resolution of the eurozone crisis, conditions could deteriorate.

Although the Santander Group conducts the majority of its business in the UK, it has direct and indirect exposure to financial and economic conditions throughout the eurozone economies. In addition, general financial and economic conditions in the UK, which directly affect the Santander Group's financial condition and prospects, may deteriorate as a result of conditions in the eurozone.

Though the possibility may be more remote following the measures taken in 2012, a wide-scale break-up of the eurozone would most likely be associated with a deterioration in the economic and financial environment in the UK and could have a material adverse impact on the whole financial sector, creating new challenges in sovereign and corporate lending and resulting in significant disruptions in financial activities at both the market and retail levels. This could materially and adversely affect the Santander Group's financial position and prospects.

- *The Santander Group may suffer adverse effects should eurozone member states exit the euro or the euro be totally abandoned.*

The departure or risk of departure from the euro by one or more eurozone countries and/or the abandonment of the euro as a currency could have negative effects on both existing contractual relations and the fulfilment of obligations by the Santander Group, its counterparties and/or the Santander Group's customers, which would have a significant negative impact on the Santander Group's activities and capital and financial position.

There is currently no established legal framework within the European treaties to facilitate a member state exiting from the euro; consequently, it is not possible to predict the course of events and legal consequences that would ensue. Uncertainties that heighten the risk of re-denomination include how an exiting member state would deal with its existing euro-denominated assets and liabilities, the valuation of any newly-adopted currency against the euro and the process of exiting the euro. These uncertainties make it impossible to predict what the Santander Group's losses might be as a result of any country's decision to exit the euro. The significant upheaval in the eurozone that might arise from any such member state exit, or from the wholesale abandonment of the euro by the eurozone states could materially and adversely affect the Santander Group's financial condition and prospects.

- *The Banking Act, and similar European legislation, may adversely affect the Santander Group's business.*

The Banking Act (the "Act") came into force on 21 February, 2009. The special resolution regime (the "SRR") set out in the Act provides HM Treasury, the Bank of England, the FCA and the Prudential Regulation Authority (the "PRA") with a variety of powers for dealing with UK deposit taking institutions that are failing or likely to fail, including: (i) to take a bank or bank holding company into temporary public ownership; (ii) to transfer all or part of the business of a bank to a private sector purchaser; or (iii) to transfer all or part of the business of a bank to a "bridge bank". The SRR also comprises a separate insolvency procedure and administration procedure each of which is of specific application to banks. These insolvency and administration measures may be invoked prior to the point at which an application for insolvency proceedings with respect to a relevant institution could be made.

If an instrument or order were made under the Act in respect of Santander UK plc and/or Abbey National Treasury Service plc, such instrument or order (as the case may be) may (among other things): (i) result in a compulsory transfer of shares or other securities or property of Santander UK plc and/or Abbey National Treasury Services plc; (ii) impact on the rights of the Company and/or certain related corporate undertakings of Santander UK plc and/or Abbey National Treasury Services plc (such as Santander Guarantee Company); and/or (iii) result in the nullification or modification of (a) agreements between Santander UK plc and/or Abbey National Treasury Services plc and the Company and/or (b) agreements between Santander UK plc and/or Abbey National Treasury Services plc and certain of their related corporate undertakings (such as Santander Guarantee Company) including, amongst others, the Conditional Share Subscription Agreement and any Financial Instruments. In addition, such an order may impact on various matters in respect of Santander UK plc and/or Abbey National Treasury Services plc and/or various other aspects of the documentation entered into in relation to each issuance of Shares (including the enforceability of such documents and/or the ability of certain parties to perform their obligations under such documents) which may negatively affect the ability of the Company to meet its obligations in respect of the Shares and/or the ability of Santander Guarantee Company to meet its obligations in respect of any Cell Guarantee.

At present, no instruments or orders have been made under the Act relating to the Santander Group and there has been no indication that any such order will be made, but there can be no assurance that this will not change and/or that the Company and the Shareholders not be adversely affected by any such order if made in the future.

In June 2012, the European Commission published a legislative proposal for a directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the "CMD"). The stated aim of the draft CMD is to provide authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimise taxpayers' exposure to losses. The draft CMD currently contains similar resolution tools and powers to the Act, and also includes a 'bail-in' power which, if implemented, would give resolution authorities the power to write down the claims of unsecured creditors of a failing institution and to convert unsecured debt claims to equity (subject to certain parameters). The draft CMD, and similarly the Presidency Compromise text of the draft CMD dated 15 January 2013, currently contemplate that its provisions must be applied by Member States from 1 January, 2015 except for the bail-in tool (in relation to certain instruments) which is to be applied from 1 January, 2018.

The draft CMD envisages that the resolution powers, including the bail-in power, could, if certain trigger conditions are satisfied, be applied to credit institutions and certain large investment firms in the EU. Consequently, if the CMD were implemented in its current form and the relevant triggers conditions satisfied, there is a possibility that these powers could be applied to Santander UK plc or Abbey National Treasury Services plc. The implementation of such powers currently set out in the draft CMD would impact how credit institutions and investment firms (including Santander UK plc and Abbey National Treasury Services plc) are managed as well as, in certain circumstances, the rights of creditors. However, the proposed directive is not in final form and changes may be made to it in the course of the legislative process. In addition, many of the proposals contained in the draft CMD have already been implemented in the Act and it is currently unclear as to what extent, if any, the provisions of the Act may need to change once the draft CMD is implemented. Accordingly, it is not yet possible to assess the full impact of the draft CMD on the Santander Group and there can be no assurance that, once it is implemented, the fact of its implementation or the taking of any actions currently contemplated in it would not materially and adversely affect the Santander Group's financial position and prospects.

- *Index Risk*

No representation or warranty, express or implied, is given on any aspect of the Index by the Company, the Directors, the Investment Manager, any Investment Counterparty, the Determination Agent, the Marketing Manager, the Guarantor or Santander UK plc. Investors should seek independent financial advice on the suitability for their purposes of having an investment giving investment exposure to the Index and the nature of such investment exposure.

None of the Company, the Directors, the Investment Manager, the Marketing Manager, any Investment Counterparty, the Determination Agent, the Guarantor or Santander UK plc gives any assurance whatsoever nor is under any obligation regarding:

- (a) the continuity of the Index;
- (b) the continuity in the methodology used in calculating the Index;
- (c) the continuity in the calculation, publication and dissemination of the Index;
- (d) the precision, integrity or lack of errors in the composition or calculation of the Index; or
- (e) the accuracy of the Index.

Shareholders should note that the Determination Agent will be involved in calculating the value of the Index applicable to the Cell Shares and, in the event of any Market Disruption Event, if the Index Sponsor makes a material modification to the Index or fails to calculate and announce the Index at a Valuation Time, may be involved in determining the level of the Index. Any determination made by

the Determination Agent in the context of any such event or circumstance will be binding on the Company (in the absence of manifest error) and may affect the Investment Return applicable to the Cell Shares. Any such event or circumstance occurring on or prior to the Maturity Date for the Cell Shares may delay the calculation of the Index values and, as a consequence, the payment of the Investment Return to the Shareholders may be delayed.

The Investment Return payable will depend on the level of the Index on specific dates as set out in Section C of this Securities Note. Accordingly, prospective investors in the Cell Shares should ensure that they fully understand how the performance of the Index may affect an investment in the Cell Shares.

Any increase or fall in the level of the Index at any time or on any date other than the closing level of the Index on the applicable specified dates will not be reflected in the determination of the Initial Index Level or Final Index Level. There can be no assurance that the closing level of the Index on the Initial Valuation Date or during the Final Valuation Period will reflect the then prevailing trend (if any) for the level of the Index or the market price for the shares comprised in it.

The level of the Index is dependent upon the values of its component securities, the values of which are subject to market fluctuations. The level of the Index may go down as well as up. Furthermore, the level of the Index may not reflect its performance in any prior period. The level of the Index at any time does not include the reinvestment of the yield on the shares comprised in the Index. Dividends paid to holders of shares comprised in the Index will not be paid to the Company or to Shareholders. Consequently, the investment return on the Cell Shares may be less than the return from a direct investment in the shares comprised in the Index.

In recent years the performance of the Index has been volatile. Volatility could have a positive or negative effect on the Investment Return. There can be no assurance as to the future performance of the Index.

In particular, the level of the Index may move significantly in very short periods of time. As such, prospective investors should be aware of the value observed for the Index may not reflect the value of the Index which has prevailed at other times on the relevant Valuation Date or in the period immediately preceding or following such Valuation Date. For example, this may occur if the Valuation Time occurs during a period where the relevant market moves significantly downwards or upwards before subsequently correcting shortly afterwards. Whilst the terms and conditions of the Cell Shares (as set out in the Registration Document and in this Securities Note) include provisions to allow for postponement of valuation in the event of certain disruptions in the market, not all significant market movements will be covered by these provisions. Levels of the Index at the opening or closing of relevant markets may also be particularly volatile as traditionally many trades are executed at such times. Any such movements could have an effect on the value of the Index and consequently the Investment Return.

Accordingly, before making an investment decision with respect to the Cell Shares, prospective investors should carefully consider whether an investment linked to the Index and the manner of such linkage are suitable for them.

- *Averaging Risk*

The Performance Return under the Cell Shares is subject to averaging.

The use of an average closing level of the Index for the final six months of the Investment Term is designed to smooth the performance of the Index and shelter the Performance Return from any sudden fluctuations in the Index. However, investors should be aware that if the Index rises continually through the final six months of the Investment Term, the use of an average could mean that the Performance Return is less than it might otherwise have been.

- *Conflicts of Interest*

Abbey National Treasury Services plc has a number of roles in relation to the Protected Cell and the Cell Shares and as a result has a number of potential conflicts of interest.

In respect of the Protected Cell, Abbey National Treasury Services plc will be appointed by the Company to provide calculation agency services to the Company as Determination Agent in accordance with the Determination Agency Agreement, will be the Investment Counterparty in respect of the Plan Investments, will, subject to the overall policy, control and supervision of the Board of Directors, act as investment manager to the Company pursuant to the Investment Management Agreement and will act as Market Maker.

Abbey National Treasury Services plc and/or its Affiliates may contract with the Company (acting in respect of itself or any protected cell in the Company) and/or enter into transactions which relate to the Protected Cell, the Cell Shares and the Plan Investments and as a result Abbey National Treasury Services plc may face a conflict between its obligations as Determination Agent and its interests and/or its Affiliates' interests in other capacities. Abbey National Treasury Services plc will have regard to its obligations to act in accordance with the rules of the FCA and PRA and any other regulatory regime to which it is subject and its obligations to other clients. In the event that such conflicts do arise, Abbey National Treasury Services plc shall use its reasonable endeavours to procure that any such conflicts of interest are resolved fairly and to ensure that the interests of the Company and the Shareholders are not unfairly prejudiced. However, where any such conflict is resolved in this way, such resolution may be adverse to the Company, the Protected Cell and the Shareholders or to the interests of the Company, the Protected Cell and the Shareholders.

- *Rating Agency Credit Ratings*

The long-term issuer credit ratings of Santander UK plc are provided for information purposes only. No credit ratings are provided in respect of the Cell Shares or the Company. Investors should note that a credit rating assigned to Santander UK plc may not reflect the potential impact of all of the risks related to the structure, market, type of return, Plan Investments and additional factors discussed in a Prospectus may affect the value of the Cell Shares. Any rating agency may lower its ratings or withdraw its rating if, in the sole judgement of the rating agency, the credit quality of Santander UK plc has declined or is in question. In addition, at any time any rating agency may revise its relevant rating methodology with the result that, amongst other things, any rating assigned to Santander UK plc may be lowered. If any rating assigned to Santander UK plc is lowered or withdrawn, the secondary market value of any Cell Shares may reduce. A rating is not a recommendation to buy, sell or hold any Cell Shares and may be subject to suspension or withdrawal (or, as noted above, revision) at any time.

- *European Regulated Investors and The CRA Regulation*

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (as amended) (the "**CRA Regulation**") from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities Markets Authority ("**ESMA**") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out in Part A of the

Registration Document. S&P, Moody's and Fitch are each established in the European Union and are each registered under the CRA Regulation. As such S&P, Moody's and Fitch are included in the list of the credit rating agencies published by the ESMA on its website in accordance with such Regulation.

## SECTION B

### INVESTMENT OBJECTIVE AND POLICY

#### INVESTMENT OBJECTIVE

The investment objective of the Protected Cell is to invest the capital contributed by subscribers of the Cell Shares in order to achieve the capital growth necessary to provide Shareholders with an investment return that is equal to the amount payable on the redemption of each Cell Share on the Maturity Date (being the **Investment Return**). The Protected Cell does not allow for investors to exercise a right of redemption other than at the Maturity Date, as provided therein. Details of how the Investment Return is calculated is set out under the sub-section headed "Investment Return" in Section C of this Securities Note.

In the opinion of the Directors, the investment objective for the Cell Shares should be achieved through the purchase of the Plan Investments as described below.

The only source of funding that will be available to the Company to acquire and/or enter into and/or support the investments designed to fund the amounts payable in respect of the Cell Shares and/or any other amounts payable by the Company in connection with the Cell Shares will derive from the capital contributed by the subscribers of the Cell Shares.

The Company has no capacity to pay any dividend in respect of any Cell Share.

#### INVESTMENT POLICY AND REDEMPTION

In order to achieve its investment objective:

- (a) The Company, on behalf of the Protected Cell, will place the aggregate amount paid to the Company during the Offer Period by way of subscriptions for Cell Shares under the Offer (being the **Original Subscription Proceeds**) on deposit in the Company's bank account with Royal Bank of Scotland International Limited (Guernsey Branch). On the Drawdown Date, the Company will lend the Original Subscription Proceeds plus any interest thereon, less the Investment Manager and Marketing Manager's fees (being the **Net Issue Proceeds**) to the Investment Counterparty under a term loan agreement (being the **Term Loan Agreement**).
- (b) The Company, on behalf of the Protected Cell has also entered into a forward contract with the Investment Counterparty (being the **Forward Transaction**), designed, together with the Term Loan Agreement, to generate the Investment Return payable in respect of the Cell Shares on the Maturity Date. This type of forward contract is, in summary, a contract to pay an amount (determined by reference to the Investment Return) at a specified point in the future. The obligations of the parties under each of the Forward Transaction and the Term Loan are subject to the satisfaction or waiver of the Term Loan Conditions Precedent and the occurrence of the Drawdown Date (please see Section H "Definitions" for descriptions of these terms).
- (c) On the Maturity Date the Investment Counterparty shall repay an amount equal to the Net Issue Proceeds to the Company under the Term Loan Agreement and shall pay an amount under the Forward Transaction which, together with the repayment of the Net Issue Proceeds, will generate the Investment Return payable in respect of the Cell Shares (being the **Forward Cash Settlement Amount**).

Any such amounts received by the Company will be paid into the bank account of the Company in respect of the Protected Cell at Santander UK plc over which Santander Guarantee Company has a first charge pursuant to the Cell Security Documents for the Protected Cell. Under the terms of the Cell Security Documents, the

Company is not permitted, without the prior consent of Santander Guarantee Company, to utilise the monies in the account for any purpose other than to make payments to Shareholders in respect of the redemption of their Cell Shares.

The payment obligations of the Investment Counterparty under the Plan Investments in combination with the account arrangement described above are designed to enable the Company, in turn, to pay the Investment Return to Shareholders at the Maturity Date.

The Term Loan Agreement and the Forward Transaction will constitute the Plan Investments and will be the only investments of the Protected Cell.

The Company and the Directors, in consultation with the Investment Manager, are responsible for the formulation of the investment policy of the Protected Cell and any subsequent change to that policy.

The investments of each Cell established after 18 January 2013 consist solely of Financial Instruments. Descriptions of the Financial Instruments entered into by the Company in respect of each Cell referred to in the table below (which consist of a term loan agreement and a forward transaction in respect of each such Cell) are set out in the Relevant Securities Note relating to each such Cell on the pages specified in the table below and are incorporated by reference into this Securities Note. The Relevant Securities Notes are available for inspection at the address referred to in Part J of the Registration Document.

## **REALISATION OF INVESTMENT**

On the Maturity Date, the Company is scheduled to compulsorily redeem all Cell Shares in issue for an amount per Cell Share equal to the Investment Return.

Subject to the receipt in cleared moneys by the Company of an amount equal to the aggregate Investment Return payable in respect of the outstanding Cell Shares under the Plan Investments on or around the Maturity Date from the Investment Counterparty, the Directors will procure that the Paying Agent pays to each Shareholder the redemption proceeds for his or her Cell Shares within three Business Days of the Maturity Date or such later date on which the aggregate Investment Return is actually received by the Company in cleared moneys. Payment of such redemption proceeds will be made by the Paying Agent to Shareholders in such manner as is set out in the section headed "Payment At Maturity" in Part B of the Registration Document. The Paying Agent is Anson Registrars Limited, PO Box 426, Anson Place, Mill Court, La Charroterie, St. Peter Port, Guernsey GY1 3WX.

In the event that the proceeds of the relevant Plan Investments are insufficient to pay the Guaranteed Return to Shareholders, the Guarantee Claims Agent will act on behalf of the holders of Cell Shares in asserting claims against the Guarantor under the Cell Guarantee for the shortfall as set out in the sub-section headed "Cell Guarantee" in Section C of this Securities Note.

Following distribution of the proceeds described above on redemption of the Cell Shares, notification will be made by the Company to the GFSC and an application will be made to the Channel Islands Stock Exchange for the delisting of the Cell Shares.

#### **FURTHER INFORMATION ON THE PLAN INVESTMENTS**

The obligations of Abbey National Treasury Services plc under each Plan Investment will be guaranteed by Santander UK plc pursuant to a deed poll guarantee dated 10 May 2012.

In the absence of unforeseen circumstances, the investment objective and policies of the Company with respect to the Protected Cell will be adhered to for its Investment Term.

A holder of Shares will be entitled to look solely to the assets of the relevant Cell in respect of all amounts payable in respect of those Shares. If the realised assets of the relevant Cell are insufficient to pay any amounts payable in respect of such Shares, such a Shareholder will have no further right of payment in respect of such Shares nor any claim against or recourse to any of the assets of any other Cell or any of the other assets of the Company.

If the realised assets of the Cell are greater than the amounts payable on the relevant Shares and the Shareholder has been paid the amounts payable, the Shareholder shall have no entitlement to any such surplus.

## **INVESTMENT RETURN**

Holders of the Cell Shares shall not be entitled to any dividends but shall be paid an amount per Cell Share on the Maturity Date calculated by the Determination Agent equal to the Investment Return, which shall be equal to the Investment Amount (£1.00) plus the greater of (a) the Fixed Return (3p) and (b) the Performance Return.

The Performance Return is equal to the lesser of :

- (a) (100p x the Participation Rate x the Index Growth);

and

(b) 35p.

The Determination Agent's determination of the Investment Return is final.

The following table sets out illustrative values of the Investment Return assuming different values for the Index Growth.

<b>Index Growth</b>	<b>Investment Return</b>
200%	£1.35
100%	£1.35
80%	£1.35
50%	£1.25
30%	£1.15
20%	£1.10
15%	£1.075
10%	£1.05
5%	£1.03
0%	£1.03
-20%	£1.03

As can be seen from the illustration above, the minimum possible Investment Return is £1.03 and the maximum possible Investment Return is £1.35 for each Cell Share held until the Maturity Date.

The Cell Shares are intended to appeal to all classes of investors who are willing to invest their money for four years and are seeking a return linked to equities but with an element of capital protection at the end of the Investment Term, although the Cell Shares are intended to be primarily marketed to retail investors seeking investment exposure of this type.

### **GUARANTEED RETURN**

Pursuant to the Cell Guarantee applicable to the Cell Shares provided by Santander Guarantee Company in favour of the Shareholders, Shareholders are guaranteed to receive (subject to the continued solvency of Santander Guarantee Company and Santander UK plc) an amount equal to the Investment Amount and the Fixed Return (referred to as the "**Guaranteed Return**") for each Cell Share held until the Maturity Date, subject to the terms and conditions of that Cell Guarantee, but no greater amount is guaranteed (see the section headed "Cell Guarantee" below).

### **WITHHOLDING TAX**

Under current taxation legislation applicable in Guernsey and the UK, the Company is not required to withhold for or on account of any tax on the payment of the Investment Return to Shareholders at the Maturity Date. In the event that a subsequent change in UK or Guernsey tax legislation or an introduction of, change in or application of any other tax legislation, regulation thereunder or official interpretation thereof were to result in the need to withhold for or on account of tax on such payments to Shareholders (including for or on account of any FATCA Withholding), the amount of the Investment Return actually received by Shareholders would be reduced. Similarly, an introduction of, change in or application of, taxation law, regulation thereunder or official interpretation thereof may impose a withholding obligation (including an

obligation of any FATCA Withholding) on payments to the Company under the Plan Investments, which may reduce the amounts capable of being paid to Shareholders. In such circumstances, the Investment Return shall be calculated on an after-tax basis. In each case, if the amounts payable to Shareholders are less than the Guaranteed Return, the amount guaranteed pursuant to the Cell Guarantee will be amended accordingly. Payments under the Cell Guarantee will also be made net of any withholding tax or other tax deduction, including, for the avoidance of doubt, any FATCA Withholding.

Notwithstanding the forgoing, the Company agrees that, if it becomes aware of the need to make any FATCA Withholding on a payment of the Investment Return to Shareholders because the Paying Agent does not satisfy any applicable information reporting requirements or any requirements necessary to prevent or minimise the amount of such withholding, the Company will use reasonable endeavours to find a replacement Paying Agent which does satisfy such requirements.

**Shareholders should therefore be aware that, in such circumstances, their Investment Return would be reduced and any payment due under the Cell Guarantee may be reduced.**

**Further, Shareholders agree to provide any information that may be requested by the Company or the Guarantor to allow the Company or, as the case may be, the Guarantor to satisfy any applicable information reporting requirements or any requirements necessary to prevent or minimise the amount of FATCA Withholding with respect to any payments to be made or received by the Company or the Guarantor.**

#### **CALCULATION OF NET ASSET VALUE**

The Net Asset Value per Cell Share will be calculated on a monthly basis as at the close of trading on the London Stock Exchange on the 7th day of each calendar month during the Investment Term of the Protected Cell, provided that, if such valuation day is not an Exchange Business Day, the Net Asset Value will be calculated as at the close of trading on the London Stock Exchange on the immediate following day which is an Exchange Business Day. The Net Asset Value per Cell Share will be announced to the Channel Islands Stock Exchange.

#### **CELL GUARANTEE**

Under the terms of the Cell Guarantee applicable to the Cell Shares, Shareholders will be guaranteed to receive (subject to the continued solvency of Santander Guarantee Company and Santander UK plc) the Guaranteed Return in respect of all Cell Shares which are held until they are redeemed on the Maturity Date.

A demand will be made by the Guarantee Claims Agent under the Cell Guarantee if the Company has insufficient assets or resources in the Protected Cell to allow payment of the Guaranteed Return on or around the Maturity Date or if the Company otherwise fails to make payment of the Guaranteed Return to Shareholders. The Company may have insufficient assets or resources in the Protected Cell if there is a default by the Investment Counterparty in making payments under any Plan Investment or if any Plan Investment terminates for any reason prior to its maturity date, or if the payments by the Investment Counterparty are subject to any FATCA Withholding.

However, the liability of the Guarantor to make payment under the Cell Guarantee applicable to the Cell Shares will be reduced to the extent that the value of the Investment Return less:

- (a) the reduction (if any), expressed as an amount per Cell Share, in the value of the assets of the Protected Cell arising as a result of the imposition or proper payment of any withholding tax which is levied or imposed by any agency having jurisdiction in the United Kingdom, or the imposition of any tax, withholding or other charge in Guernsey, on any payments under any Plan Investment; and

- (b) the reduction (if any), expressed as an amount per Cell Share, in the value of the assets of the Protected Cell arising as a result of the imposition or proper payment of any FATCA Withholding on any payments under any Plan Investment; and
- (c) the amount (if any) expressed as an amount per Cell Share, of any withholding tax or deduction which is levied or imposed by any agency having jurisdiction in the United Kingdom and/or Guernsey and/or any FATCA Withholding on payments by the Company to holders of the Cell Shares in connection with the redemption of such Cell Shares held by them as at the Maturity Date; and
- (d) the extent to which it is unlawful for the Guarantor to remain under any (or any further) obligations under that Cell Guarantee.

is less than the Guaranteed Return.

In addition, if any payment required to be made by the Guarantor under the Cell Guarantee is subject to any deduction or withholding in respect of tax, the Guarantor will be entitled to deduct the amount of such deduction or withholding from the relevant payment so that the relevant Shareholders who are entitled to receive such payment will receive an amount net of such deduction or withholding. The Guarantor will not be under any obligation to make any additional payment under the Cell Guarantee in respect of such deduction or withholding. For the avoidance of doubt, the Guarantor shall be entitled to deduct any FATCA Withholding.

Investors should note that the Company has agreed to indemnify the Guarantor for payments under the Cell Guarantee applicable to the Cell Shares and such indemnity will be secured on the assets of the Protected Cell. The Guarantor will have first recourse to the assets of the Protected Cell in relation to any payment it makes under the Cell Guarantee. This means that, if a payment is made under the Cell Guarantee, the assets of the Protected Cell will not be available to pay any non-guaranteed element of the Investment Return due in relation to the Cell Shares until the Guarantor has been reimbursed in full for its payment under the Cell Guarantee.

## **MARKET DISRUPTION AND ADJUSTMENT**

The provisions of Market Disruption, Adjustment to Index and Correction to Stock Prices or Index Levels, each as specified in Part B in the Registration Document, apply to the Cell Shares.

## **INFORMATION ON THE INDEX**

The following description of the Index has been derived from publicly available information on the website of the Index Sponsor ([www.ftse.com](http://www.ftse.com)). The description has been accurately reproduced and, as far as the Company is aware and is able to ascertain from information published by the Index Sponsor, no facts have been omitted which would render the description inaccurate or misleading.

The FTSE 100 is a market-capitalisation weighted index representing the performance of the 100 largest UK listed blue chip companies, which pass screening for size and liquidity. The Index is managed according to a transparent and public set of index rules, and overseen by an independent committee of leading market professionals. The committee ensures that the rules are correctly applied and adhered to. Regular index reviews are conducted to ensure that a continuous and accurate representation of the market is maintained.

The Index is calculated based on a price (or capital return) methodology, meaning that the index value only uses the share prices traded in the market. The Index is not calculated on a total return methodology (where the calculation methodology assumes that dividends are re-invested into the index constituents).

The Cell Shares are in no way sponsored or endorsed by the Index Sponsor.

- (a) to the extent that the Company is required to make any withholding or deduction in respect of tax in respect of any distribution to holders of Cell Shares upon the redemption of such Shares, holders of such Shares shall not be entitled to seek to recover from the Company any amounts so withheld or deducted and shall be deemed to have been satisfied in full; and
- (b) the Investment Return per Cell Share shall be reduced by (i) an amount equal to the reduction arising as a result, directly or indirectly, of the imposition or proper payment of any withholding tax levied or imposed by an agency having jurisdiction in the United Kingdom on payments to the Company under any Plan Investment or the imposition of any tax in Guernsey on the Company on the proceeds of any Plan Investment received by the Company and (ii) an amount (if any) equal to any FATCA Withholding, provided that any such reduction is applied first against any Performance Return or Fixed Return and then against the Investment Amount.

On a winding-up of the Protected Cell (or on any other return of capital) prior to the Maturity Date for the Cell Shares after paying all debts attributable to, and satisfying all liabilities of, the Protected Cell, holders of Cell Shares shall be entitled to receive by way of capital any surplus assets of the Protected Cell in proportion to their holdings of Cell Shares.

The holders of Cell Shares are only entitled to participate in the assets of the Protected Cell and have no entitlement to participate in the distribution of any assets attributable to any other Cell or, except as provided under the Companies Law, to the assets not attributable to any Cell, in meeting their capital entitlement.

### *FATCA Withholding Information*

The holders of Cell Shares agree to provide any information that may be requested by the Company or the Guarantor to allow the Company or, as the case may be, the Guarantor to satisfy any applicable information reporting requirements or any requirements necessary to prevent or minimise the amount of FATCA Withholding with respect to any payments to be made or received by the Company or the Guarantor.

Should any holder of Cell Shares fail to provide any such information, such Cell Shares may, at the option of the Company, be deemed to be "Prohibited Shares" for the purposes of Article 50(4) and consequently will be subject to compulsory transfer in accordance with Article 50(4).

### *Voting*

The rights as to voting attributable to the Cell Shares are identical to those of the Cell Shares generally, as set out in paragraph 6.2 of Part D of the Registration Document.

### *Restriction on Transfer*

Cell Shares may not be transferred prior to the Investment Date.

### *Compulsory Redemption prior to Maturity Date*

If any of the following events occur, the Directors shall compulsorily redeem all Cell Shares in issue at the Issue Price (plus any net interest earned thereon) and cancel the listing of such Cell Shares on the Channel Islands Stock Exchange:

- (a) if no Drawdown Date occurs on or prior to the Drawdown Cut-off Date; or
- (b) if the Net Issue Proceeds are not lent to the Investment Counterparty on the Drawdown Date,

for any reason other than as a result of the Company being unable to recover some or all of its subscription monies placed on deposit with the Royal Bank of Scotland International Limited (Guernsey Branch).

If the Company is unable to recover some or all of its subscription monies placed on deposit with the Royal Bank of Scotland International Limited (Guernsey Branch) on or prior to the Drawdown Cut-off Date, the Directors shall compulsorily redeem all Cell Shares in issue at their net asset value and cancel the listing of such Cell Shares on the Channel Islands Stock Exchange.

Further information on voting rights is set out in paragraph 6.2.1(i) of Part D of the Registration Document.

## **MATERIAL CONTRACTS**

In addition to those Material Contracts specified on pages 84 to 99 of the Registration Document that are applicable to the Cell Shares, the Company has entered into the Listing Sponsor's Agreement and the Series Deed which, amongst other things, constitutes the ISDA Master Agreement, the Forward Transaction, the Term Loan Agreement, the Charge Agreement and the Determination Agency Agreement, each as described below.

### **Protected Cell Documentation**

The ISDA Master Agreement governs each of the Term Loan Agreement and the Forward Transaction for the Protected Cell. Each of the ISDA Master Agreement, the Term Loan Agreement and the Forward Transaction are constituted by the execution of the Series Deed for the Protected Cell.

The ISDA Master Agreement contains standard events of default and termination events, including failure to pay and insolvency related events, but excludes from the definition of "Indemnifiable Tax" any withholding

or deduction under FATCA. Under the terms of the ISDA Master Agreement, the Investment Counterparty has agreed to limit its recourse for payments due to it from the Company under the ISDA Master Agreement to the assets of the Protected Cell. The ISDA Master Agreement, Term Loan Agreement and Forward Transaction are expressed to be governed by English law and each party submits to the jurisdiction of the English courts. Enforcement of foreign judgements in Guernsey is governed by the Judgments (Reciprocal Enforcement) (Guernsey) Law 1957, as amended (the **Judgements Law**). England and Wales is a reciprocating country for the purposes of the Judgements Law. A judgement obtained in the Supreme Court and the Senior Courts of England and Wales, excluding the Crown Courts, is likely to be recognised and enforced by the Royal Court of Guernsey, subject to compliance with procedural and other requirements of the Judgements Law, unless any judgement is obtained by fraud, is in conflict with Guernsey public policy, has already been satisfied wholly or could not be enforced by execution in the jurisdiction of origin.

Performance by the Investment Counterparty of any obligation or liability to make any payment in cash which is or becomes payable by it under the ISDA Master Agreement is unconditionally and irrevocably guaranteed by Santander UK plc pursuant to a deed poll guarantee dated 10 May 2012. It should be noted that the guarantee is a guarantee of payments due under the ISDA Master Agreement to the Company and not a guarantee of the Investment Return for the Protected Cell.

The Company and Mourant Ozannes Securities Limited have entered into an agreement dated 3 May 2013 for the Protected Cell under which Mourant Ozannes Securities Limited has agreed to act as sponsor in connection with the application for Admission of the Cell Shares (the "**Listing Sponsor's Agreement**"). In consideration of the services provided by it under the Listing Sponsor's Agreement, Mourant Ozannes Securities Limited will be paid an initial fee of £600 and then an annual fee of £600 for the Protected Cell.

The Listing Sponsor's Agreement contains certain warranties and indemnities, which are of a customary nature, given by the Company in favour of Mourant Ozannes Securities Limited. The agreement may be terminated by either party by not less than 60 days notice in writing. In certain circumstances, the agreement may be terminated forthwith by notice in writing by either party to the other and may, in certain circumstances, be terminated prior to such Admission.

The Company and Abbey National Treasury Services plc have entered into an agreement dated 3 May 2013 for the Protected Cell under which Abbey National Treasury Services plc has been appointed to undertake a calculation agency role in connection with the Cell Shares and to make all the determinations specified in this Prospectus to be made by the Determination Agent (the "**Determination Agency Agreement**").

The Determination Agency Agreement contains certain warranties and indemnities, which are of a customary nature, given by the Company in favour of Abbey National Treasury Services plc. The agreement may be terminated by either party by not less than 90 days notice in writing. In certain circumstances, the agreement may be terminated forthwith by notice in writing by either party to the other.

The Company and Santander Guarantee Company entered into a charge agreement on 3 May 2013 (the "**Charge Agreement**") under which the Company grants a fixed charge over the Plan Investments for the Protected Cell, and bank accounts at Santander UK plc in respect of such Cell ("**Charged Assets**") into which it will pay the proceeds of Plan Investments for the Protected Cell, in favour of Santander Guarantee Company as security for its indemnity obligations to Santander Guarantee Company under the Guarantee Facility Agreement in relation to the Cell Guarantee applicable to the Cell Shares. Under the terms of the Charge Agreement for the Protected Cell, the Company is entitled to make payments out of the bank accounts only where such payments have been countersigned by a duly authorised officer of Santander Guarantee Company.

In the event that the Company fails to repay Shareholders the Guaranteed Return in respect of the relevant Cell Shares redeemed on the Maturity Date for the relevant Cell, Santander Guarantee Company will be entitled to enforce its security over the Charged Assets for the relevant Cell to assist it in meeting its obligations to pay Shareholders under the Cell Guarantee applicable to the Cell Shares.

## TAXATION

Information relating to Guernsey and United Kingdom taxation is set out in Part D of the Registration Document under the heading "Taxation".

The description of the tax position in relation to the Cell Shares which is set out in Part D of the Registration Document under the heading "Taxation" (as supplemented by information contained in this Securities Note), is based on the Company's current understanding of current legislation and practice as at the date of this Securities Note and may be subject to change.

Prospective investors should note that the information relating to United Kingdom Taxation set out in Part D of the Registration Document under the section headed "United Kingdom" under the heading "Taxation" is supplemented by and should be read in conjunction with the following:

The five paragraphs under the heading "*Individual Shareholders who acquire their investment in Shares through an Individual Savings Account*" shall be deleted and replaced with the following:

"The Protected Cell 245 Cell Shares will not be eligible for inclusion within a stocks and shares ISA."

The section entitled "*Dividends*" under "*(b) Shareholders – Individual UK tax resident and domiciled Shareholders*" shall be deleted in its entirety.

The section entitled "*(c) Shareholders – UK tax resident corporate Shareholders*" shall be deleted in its entirety and be replaced with the following paragraphs:

"Shareholders that are companies should note that their tax treatment is dependent on their particular circumstances.

A UK tax resident company Shareholder that holds the Shares as an investment and which disposes of those Shares by way of sale should be subject to corporation tax on capital gains arising from the disposal of Shares. Such Shareholders are currently entitled to an indexation allowance which applies to reduce capital gains to the extent that they arise due to inflation.

The proceeds of the redemption of Shares should be treated as a distribution potentially within the charge to corporation tax on income (subject to the availability of certain exemptions) to the extent that the redemption proceeds exceed the amount of capital treated as repaid on the Shares on their redemption. The tax treatment of the distribution proportion of the redemption proceeds of Shares should be the same as the tax treatment of dividends received in respect of the Shares, that is the distribution should be exempt from corporation tax on income if an exemption applies. For Shareholders which are small or micro enterprises (within the meaning of the Annex to Commission Recommendation 2003/361/EC), an exemption is only available for distributions paid by companies which are resident in a territory with which the UK has a double taxation treaty containing a non-discrimination article. Guernsey does not currently have a double taxation treaty with the UK that contains a non-discrimination article. Accordingly, Shareholders which are small or micro enterprises should be subject to UK corporation tax on the excess of any redemption proceeds received on the Shares over the amount of capital treated as repaid on the Shares on their redemption.

For other corporate Shareholders, an exemption from corporation tax on income is available in a number of situations, including certain cases in which the Shareholder, together with persons connected with the Shareholder, hold less than 10 per cent. of the Shares in respect of the relevant Cell and where the distribution is paid out of profits arising from transactions none of the main purposes of which was to achieve a reduction in UK tax. However, the availability of the exemption is subject to a number of conditions, and also in certain circumstances the exemption is not available if the distribution is paid as part of a scheme or arrangement the main purpose or one of the main purposes of which is to secure a UK tax advantage. If a corporate Shareholder is entitled to an exemption from corporation tax on income in respect of the proportion of the redemption amount paid to that Shareholder on a redemption of Shares, that

Shareholder may be chargeable to corporation tax on any capital gain that arises on the redemption of the Shares, after taking into account any available indexation relief."

The following language should be included at the end of the section entitled "(d) Other UK tax considerations":

*"Disguised interest rules*

The disguised interest rules may apply to any arrangement which produces a return which is economically equivalent to interest. A return will be treated as economically equivalent to interest if it is a return for the time value of money, paid at a rate reasonably comparable to a commercial rate of interest, where there is no practical likelihood that the return will not be paid.

For Shareholders who are corporation tax payers, the rules in Chapter 2A in Part 6 of the Corporation Tax Act 2009 (CTA 2009) provide that if arrangements provide such a return it may be treated as a profit arising to that company from a loan relationship which is to be brought into account on an amortised cost basis of accounting. These provisions do not apply unless it is reasonable to assume that the main purpose, or one of the main purposes, of the company being party to the arrangements is to obtain a relevant tax advantage within the meaning of section 486D CTA 2009.

For Shareholders who are income tax payers, draft legislation to be included in Finance Act 2013 has been proposed to be inserted as a new Chapter 2A in Part 4 of the Income Tax (Trading and Other Income) Act 2005, which if enacted in its current form, may tax such a return as income where the person becomes party to the relevant arrangement on or after 6 April 2013."
